

4th Annual NASA Educators Workshop for STEM (NEWS)

Calling all in-service, pre-service, and informal educators!

Educators are invited to register for 1-3 days of workshop training. Attendees can earn between 6 to 18 hours toward continuing education units.

Registration is free. Deadline for Registration is February 15, 2012

Showcasing S.T.E.M.S. "Set To Explore My Surroundings: Earth, Near Earth, and Beyond!" NASA continues to blend *Science, Technology, Engineering, and Mathematics (STEM)* using education resources related to current and future missions. This is an opportunity to discover the learning potential in trying new approaches to the seemingly difficult or impossible. The workshops will explore engineering design challenges, problem-based learning activities, distance-learning modules, inquiry-based lessons, and hands-on projects.

Joins us as we showcase S.T.E.M.S. "Set To Explore My Surroundings: Earth, Near Earth, and Beyond!"

February 28th - March 1st, 2012

**At Cochrane Collegiate Academy
6200 Starhaven Drive, Charlotte, NC 28215**
